★★★★
LAMORESCA
MAISON DE CHARME

The Leitmotiv of La Moresca is authenticity, the respect, preservation and promotion of our history and culture.

The building is a splendid and original patchwork of what used to be and continues to exist, in contrast but harmoniously integrated with the forward motion of time, progress, and arrival of the modern.

Divergent perspectives coexist, at times creating a seeming nonsense, but which if the truth be told, merge and mingle, leading back to just one concept, authenticity.

Throughout the year La Moresca offers the possibility to escape from the world and everyday life, to a unique environment notable for its warmth and serenity.

The original furniture, their candid brightness, the light floating curtains, the photographs immortalising glimpses of Sicily, sometimes in colour, sometimes in black and white, and the paintings, add to their charm and make them welcoming, in perfect keeping with La Moresca's philosophy.

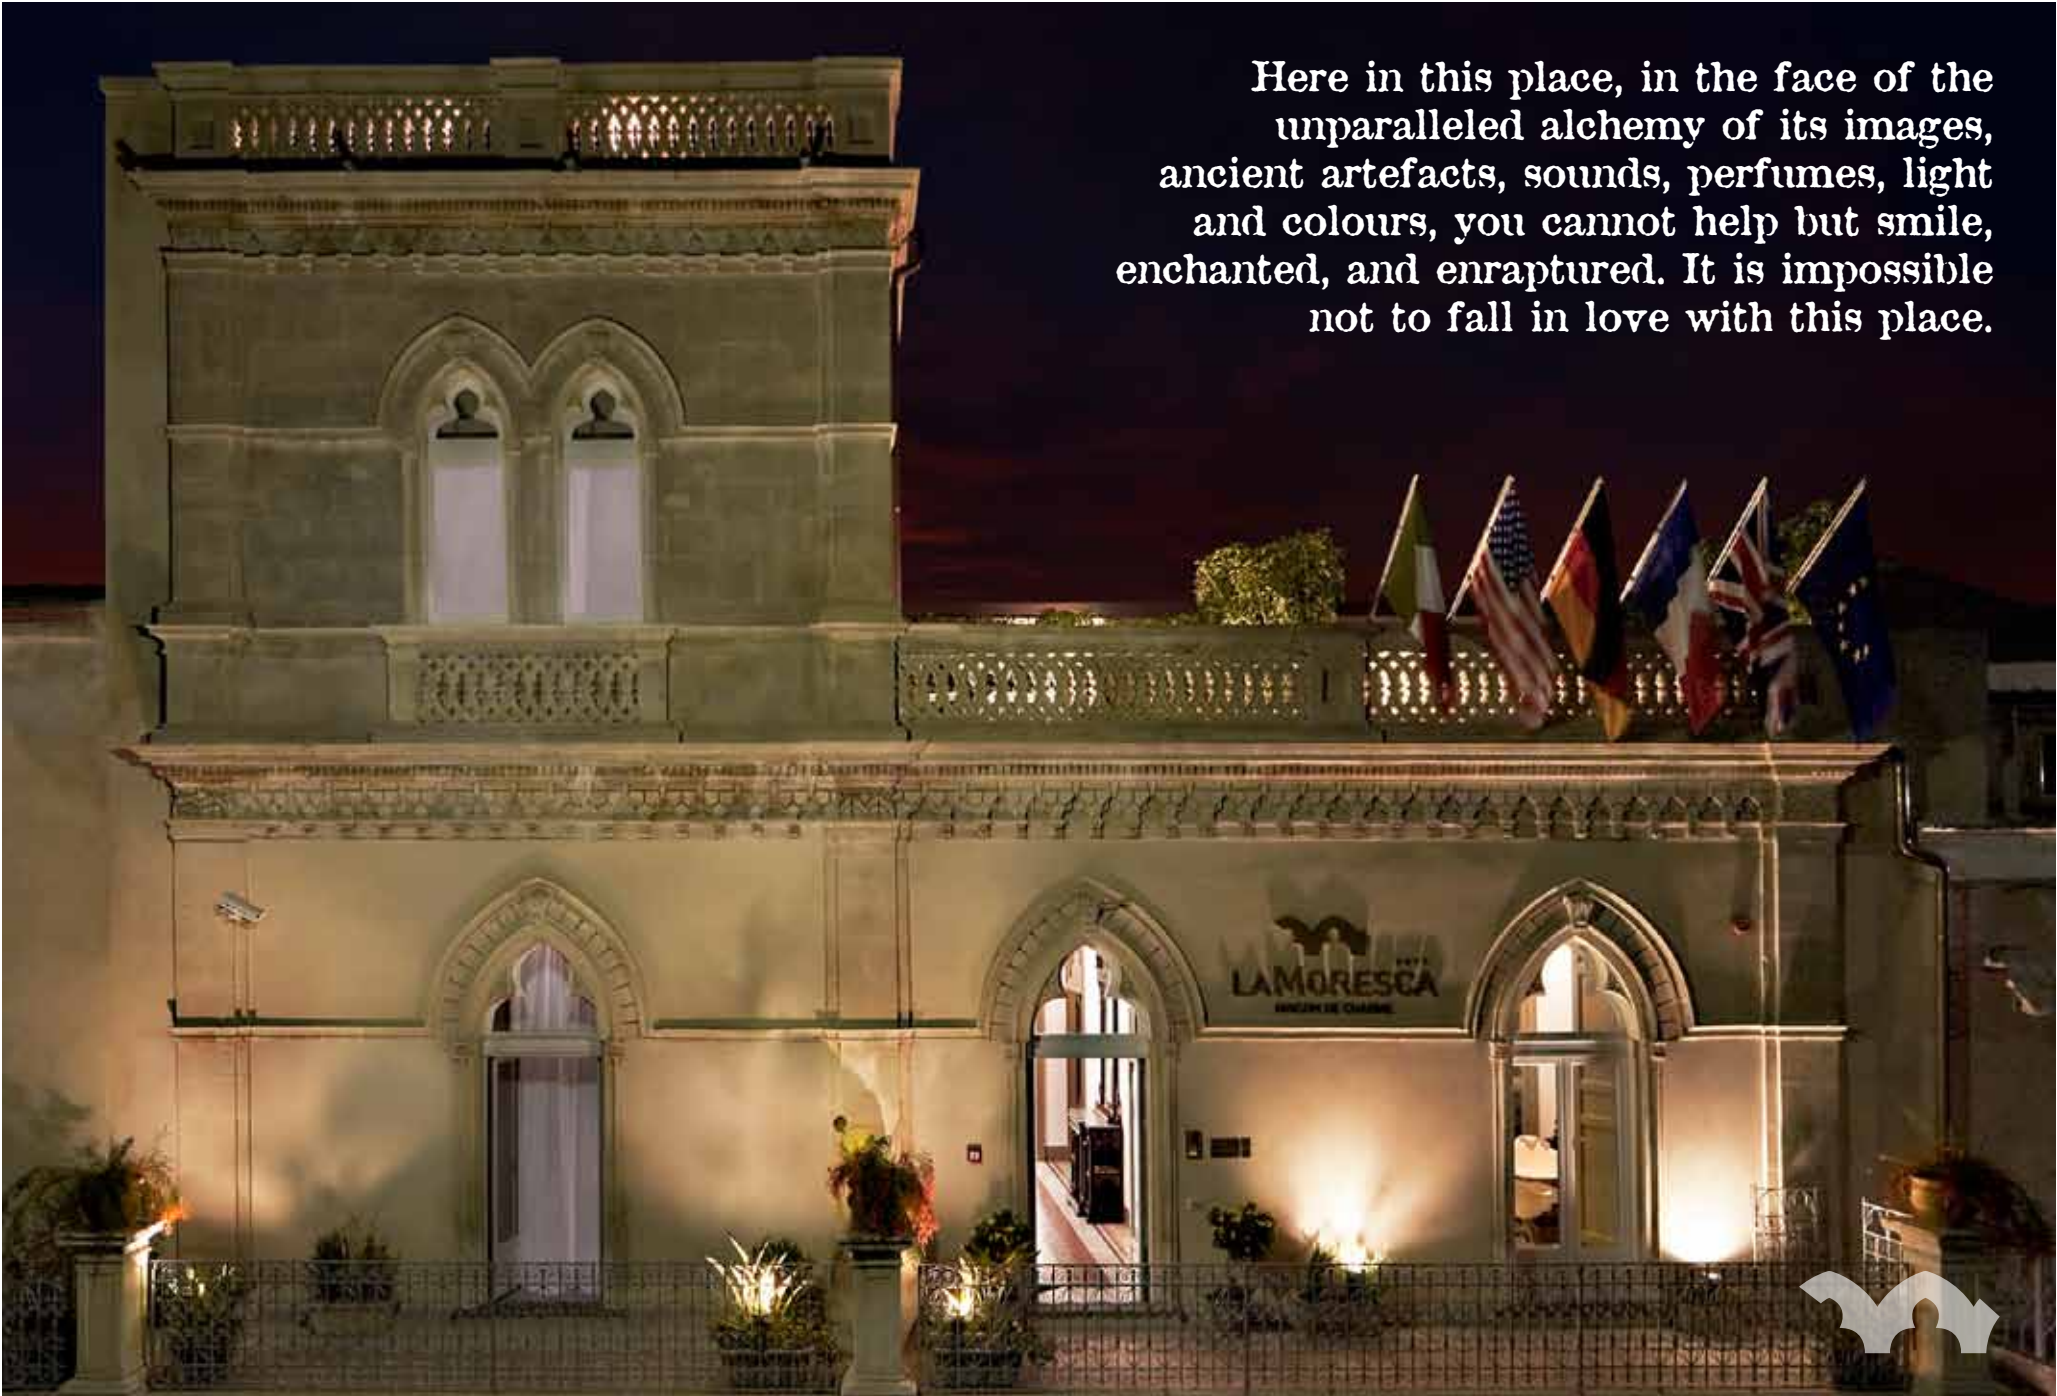

Here in this place, in the face of the unparalleled alchemy of its images, ancient artefacts, sounds, perfumes, light and colours, you cannot help but smile, enchanted, and enraptured. It is impossible not to fall in love with this place.

for lovers... but not only for honeymooners!
